

imagineformby

imagine formby is a volunteer-led Community Interest Company (CIC) set up to make Formby a more environmentally friendly, exciting, healthy and happy place to live, work and visit!

imagine formby is structured into four groups focusing on key areas that were highlighted in a community survey:

- Environment
- Art, Culture and Heritage
- Local Business
- Youth and Community

Village Events

Cycle Friendly

Artisan Market

Safety & Security

Tree Planting

imagine formby will achieve this by:

- Consulting with and maintaining communication with **local residents**, organisations and traders to encourage 'ownership' of developments.
- Working in **partnership** with Sefton Metropolitan Borough Council in seeking funds for projects, and integrating with Sefton Council economic regeneration policies.
- Promoting **joint working** with local schools, youth organisations and local community groups and societies
- Devising, developing, managing and implementing exciting **arts, cultural and environmental community projects**, raising funds to do so.

imagine formby has already initiated several projects and more are to come!

8 Alleyways

The alleyways off Chapel Lane connecting the car parks to the Village, are very neglected and attracting vandalism. Also, of a night-time, it can feel unsafe to walk through as they are so dark!

A more attractive village centre will encourage more footfall, not just from local residents, but visitors, too. More footfall means better business for our current shops and services and will encourage more people to open a business here, too. We need this for our Village centre to survive!

The **8 Alleyways** project aims to transform these alleys into safe, light attractive and exciting spaces. We will involve the local community to design themes and work with professional artists and landscapers to make improvements.

Please pledge a donation

We have organised a crowdfunding scheme with Sefton Council. If we reach our target of £11,054, Sefton will support us by contributing £5,000! Pledging is safe, and your pledge won't be taken unless we reach this target.
